VACON ENHANCED NXP AC DRIVES RELIABLE. ROBUST. PROVEN.

With this new NXP update we're refreshing one of our most popular AC drives in the complete power range from 0.55 kW to 5300 MW. Improvements to our air-cooled and liquid-cooled units include e.g. redesigned control circuit boards, conformal coating for improved protection against dust and moisture, a new cooling concept for exceptional fan efficiency and a powerful new processor to boost calculation power.
